Elmalı Machinery have been making metal sheet processing machines in Konya with an experience for 20 years. Our machinery program includes

- HYDRAULIC PRESS BRAKES
- HYDRAULIC GUILLOTINE SHEARS
- MECHANICAL GUILLOTINE SHEARS
- ECCENTRIC PRESSES
- DRAWING PRESSES
- PUNCH HOLE PRESSES
- METAL SHEET ROLLER MACHINES
- BUMP PRESS AND BUMP DRAWING PRESSES and
- SPECIAL CUSTOM DESIGNED HYDRAULIC MACHINES

All of the machines in our program produced completely from designing to mounting in our own facilities. Our machines has 1 year warranty. From our first beginning, we as Elmalı Machinery invested on newer technologies and employed qualified personnels only to reach our high quality target. By our stable principles, today we are a reliable company supplying quality machines to the industrialists & investors in domestic and international markets. Our company's main principal is to make precise and high quality machines for our customers with reliable and effective after-sale services and convenient prices.

### Corrected and Improved Text

It was 20 years ago that Elmalı Machinery started producing sheet metal processing machines. Today most types of sheet metal machines are available from the company's Konya plant:

- Hydraulic Press Brakes
- Hydraulic Guillotine Shears
- Mechanical Guillotine Shears
- Eccentric Presses
- Drawing Presses
- Punch Hole Presses
- Metal Sheet Roller Machines
- Bump Presses
- Bump Drawing Presses

in addition to

- Custom Designed Hydraulic Machinery

From the initial design to final mounting, Elmalı Machinery carefully develops and produces each of its sheet metal machines; thus the company can warranty each machine for the entire first year of its operation.

From the beginning, Elmalı Machinery invested in the latest technologies and the most qualified personnel. Now the company sets and meets the highest possible quality targets.

By the consistent application of our fundamental principles, we have come to export high quality sheet metal machines to industrialists around the world and, of course, throughout Turkey.

- We only produce high precision, high quality machines
- Reliable and effective after-sales service
- Each machine is delivered at a reasonable price
